Phone							

Project Information

Project Overview:
Provide a succinct and relevant summary that can be easily understood and clearly communicate the
importance of the project. Discuss innovation and why this project will be beneficial to the community's
Climate Resiliency. This summary should include project background, location, community need for the
project, high level goals, and partnerships. Maximum 1000 Characters

Goals and Objectives:

Describe what you plan to accomplish. Context should clearly identify priority landscapes and issues that are the focus of the project. Goals and objectives should be explicitly explained and linked to the specific grant category. Objectives should be realistic, measurable and attainable within the contract period.

Maximum 2000 Characters

Proposed Activities:

describe the n		idget and to sto their uses will l	- In a second

Deliverables, Timelines, Outputs, Outcomes:

Describe the timeline for this project in detail. Clearly lay out deliverables and outcomes and describe how the selected objectives will lead to measurable outcomes and how the applicant will measure progress towards those outcomes.

- What is the benefit to the community and/or state?
- What need or issue will it solve?
- How visible will it be to the community?
- What is the public relations impact and how will it increase public awareness?
- Will the program or project continue after the grant expires?
- Outline the proposed Timeline for this project.

Maximum 2000 Characters		

Sustainability of Outcomes:

Describe how the project results in outcomes that extend beyond the life of	
plan for management of the trees that will ensure the success of the proje	
for why dollars invested will sustain project outcomes into the future beyo	ond project end date.
Maximum 1250 Characters	

Community Need:

Project supports Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, the Forest Service's Equity Action Plan, and the Texas Forest Action Plan. The project should include the following elements: A description of the benefiting community or recipient. For example, a description could include demographics, such as race or socioeconomic status; or vulnerabilities such as health, economic, environmental, and climate impacts faced by the community. Data or evidence should support the proposal. Applicants may consider utilizing the national tools and datasets listed below or provide more localized knowledge such as tribal, local, or state data, to describe the populations and conditions that the project proposes to benefit. A description of how the project benefits or engages underserved communities or people. Benefits may be social, ecological, or economic and should include:

- An overview of the targeted community and partners engaged in the project; and how they will be impacted by the project.
- Quantitative and qualitative description of how communities will be engaged to participate in/benefit from the project.

in the project.				
aximum 2000 Cha	racters			

Collaboration:

Proposals should demonstrate use of coordination and partnerships with local or state entities to improve outcomes.

• Describes how the project is collaborative and clearly identifies partners that are actively engaged and add value towards project planning and implementation.

• Cultivates organization of partners around common goals/objectives.	
Maximum 1000 Characters	

Budget

Amount of Funds Requested: \$50,000

This is equal to the **Total Federal \$.**

This grant category requires a dollar for dollar match (1:1 Match). Your Total Local \$ needs to be greater than or equal to your Total Federal \$.

Add Total Local Cash \$ + Total Local In-Kind \$ to calculate Total Local \$

	Federal \$	Local Cash \$	Local In-Kind \$	Total \$
