

# Explore Conservation With Texas A&M Forest Service

The Texas A&M Forest Service Conservation Education Program offers fun and educational lessons to help all Texans learn about and care for our forests and related natural resources.

## Did You Know?

**All life on earth depends on healthy forests, and Texas has more forests than any other state in the continental United States!**

It's up to Texans to keep our forests conserved and protected, and Texas A&M Forest Service can help prepare students and teachers with the knowledge and skills they need to ensure a healthier, more sustainable future for all.

## Grow with us!

### Bring Forests Into the Classroom

Visit [TexasForestInfo.com](https://www.texasforestinfo.com) to explore a wide variety of virtual education and land management tools.

### Make It Personal

Learning to care for our environment begins with building a strong personal connection. Visit [HealthyTreesHealthyLives.org](https://www.healthytreeshealthy lives.org) to explore the ways forests improve our lives.

## Contact Us

Texas A&M Forest Service offers expert speakers and curricula in forestry, water resources, wildlife conservation, wildfire & emergency response, and more.

Contact [education@tfs.tamu.edu](mailto:education@tfs.tamu.edu) to schedule programs for your school.

## Our Programs

Learn with us virtually or in person across a variety of disciplines and topics. Lessons can be tailored to your school's scheduling and learning needs.

### K-12 Resources

- TEKS-aligned curriculum
- STEAM activities & hands-on lessons
- Virtual lessons & online learning
- Class presentations & guest speakers

### Elementary Lessons

- Tree and forest ecology & habitats
- Earth systems, cycles & conservation
- Careers in the forest
- Fire safety & prevention with Smokey Bear

### Secondary Lessons

- Environmental science & climate change
- Sustainability & renewable innovations
- Career connections & technical skills training in forestry and conservation

### For Educators

- Project Learning Tree & environmental educator training and certification
- Free Lunch-n-learn & in-service options
- Forest & nature therapy for teachers
